Gentle Therapy with Biofrequency

Simple effektive Therapy
with Diamond Shield ChipCard Programs

**eBook – 2nd edition 2016
All rights reserved**

ISBN 978-3-00-0379-26-0

© 2016

A.E. Baklayan and Arbeitskreis TREF (ed.)

Attention!

This book should not replace the diagnosis and therapy control from any doctor or a non-medical practitioner! Although the outcomes with the Diamond Shield Zapper and the electrical frequencies are impressive –even with very heavy and chronic diseases– This book is not intended to replace a controlled medical therapy.

Introduction: Why a ChipCard Info-book?

Dear Reader,

At the beginning of every change you will find information and new knowledge. Probably, the wish for a better health and a higher quality of life has already induced you to undertake a change in your life. For this reason I am glad for your interest in the “ChipCard Therapy Program”, which I would like to present and explain to you with this brochure.

The focus of the Diamond Shield frequency technology is on the direct application of frequencies. Independently of whether you already have theoretical knowledge or practical experiences in the field of Biofrequency Technology or not, a special for your health issue or your indication developed frequency can work out highly effective for your organism and therefore support you actively on your way to obtain a higher quality of life.

To facilitate your detailed search to a certain topic in this brochure, I deranged the frequency programs for every ChipCard with regards to their content and in alphabetical order. According to the headings starting from A like Asthma bis Z like Zähne (Teeth). You will rapidly recognize your topic in form of your health issue and therefore receive a link to the content of your particular ChipCard.

If the Frequency Technology is still new or unknown to you so far, I would like to recommend reading through the whole book, to consequently approach this topic in a practical use.

For more background information about Frequency Therapy and its possible applications I would like warmly recommend to you the books *“Gentle Healing with Harmonic Waves – simply zap your Health Problems away!”* and *“Gentle Self-Healing with harmonic waves – A Practical Manual”*.

Make use of the free spaces in this Info-Book for your own notes, questions and annotations that may appear while you are reading this book. On the back side of this book there

should be the contact details of the person handing, this Info-book out to you. Contact this person and talk with her or him about your questions and concerns. This person will surely help you or in case of doubt can refer you to another adviser for further examination.

The basis-device for every single ChipCard with the corresponding Hardware is the Diamond Shield Zapper IE EMS, which I would like to present you in this brochure before listing each ChipCard program. Thereby I would like to provide certain fundamental information on the Diamond Shield Frequency Technology in general as well as on the impact of the application of the frequencies. In this way I will illustrate why they can be used so effectively for this kind of therapy.

Also important to be mentioned in this Info-book are the so-called additional measures, such as, an adequate drinking water supply or a deacidification treatment for example, which will also support the Biofrequency Therapy and accelerate their positives effects .

Besides the possibility to use individually applicable ChipCards, the Diamond Shield Zapper IE EMS already disposes in the device standard integrated basic programs. In a short overview I will first present you these frequencies and their possibilities of application.

Finally, I would like to wish you much pleasure while reading this book. May it provide you with the exact information that you will require to support you on your further way.

Sincerely,

Alan E. Baklayan

The Diamond Shield Frequency Technology

Help for self-help

The Diamond Shield Frequency Technology is based on the functioning of vibrations as carriers of information. The principle of operation can be illustrated with the example of a soprano singer that can cause a glass that is close to her to break through her singing. Just as the glass breaks, because the tone is exactly corresponding to the frequency of the glass, with the frequency technology, the pathogens that are nested in different organs inside the human organism will be debilitated or smashed only by the confrontation with their own frequency. Now the immune system itself can just attack or eliminate the corresponding responsible agent for deceases and complaints.

The vibration programs of the Diamond Shield devices operate with electrostimulation for both, chronic and acute pain. Even if their impact until today still has not been recognized by academic medicine, the Diamond Shield Technology with its entire range of results is corresponding to the results of the most recent scientific researches that, such as within pain therapy for example, suggest both, an interruption of the stimulus conduction as in the Sch-T1 and Sch-T2 programs as well as a stimulation of the body at the same time.

After a short introduction of all the programs of the Diamond Shield Zapper IE EMS can be operated by oneself, while an integrated safety mechanism in the device is blocking sudden increases in the flow of electricity.

Additional information on the principle of operation of the applied frequencies

As already mentioned in the previous text, each organism is constantly sending out certain natural frequencies. Therefore highly developed life-forms emit correspondingly high natural frequencies. Also the bandwidth with which the vibrations are sent out increases depending on the developmental stage of the organism.

When the microorganisms are exposed to an electrical current at the average of their own frequency, they will be debilitated. To provoke such a reaction of intolerance in the microorganisms, it is just enough to have an alternating current flow of only a few volts, produced by a frequency generator. With this easy as well as advanced procedure, a weakened organism can also be supported and very effectively stimulated for self-help.

The application of the biofrequencies is divided in two groups, which are essentially different in their application and their mode of operation.

- 1.) The first four programs are supporting programs according to A.E. Baklayans harmonic waves system.
- 2.) The universal frequencies in accordance with Dr. Hulda Clark (7-20-7-20 and Const Zap), involve frequencies with a broad impact; their functional principle can be metaphorically compared to a shot gun: The wide dispersion of the frequencies can support the whole weakened organism. The application of these universal frequencies can be useful for beginners or if you don't know which particular frequencies your body currently needs.
- 3.) All specific frequency programs contain special high frequencies which act as a riflescope against certain pathogens and can debilitate or kill them. Such a frequency makes the agent, which is causing the complaints, oscillate exactly in his own frequency and precisely hits him like a single ray of light.

For more detailed information to the mentioned bio-frequencies I would like to recommend to you the books “*Gentle Healing with Harmonic Waves – simply zap your Health Problems away!*” and “*Gentle Self-Healing with harmonic waves – A Practical Manual*” by A.E. Baklayan. Suggestions for additional literature can be found in the detailed description of some of the Chipcards. If you are interested, another option to the recommended literature is to ask your advisor whose contact you will find on the back of this Info-book.

Additional measures to support the treatment

I am consistently convinced of the effectiveness of the Diamond Shield frequency technology and its positive effects. Nonetheless at first there can be certain light consequences as reactions to some of the applications of the Diamond Shield like headaches, tiredness or fatigue and in some cases, a temporally initial aggravation of the symptom will become noticeable. These reactions appear in cooperation with the initiated detoxification process of your body during the treatment. This can be clearly demonstrated by the experience in practice. The now vacant toxins can primarily overcharge the self-regulation of the body. Especially for multi-allergic people and patients who suffer from extreme over acidification, such signals of the body can be shown.

- 1.) Reduce the duration of the treatment and begin for example with a treatment period of three times 60 seconds. Increase this time only very moderately.
- 2.) Take actions for the deacidification of your body.
- 3.) Support the process set in motion by the therapy by drinking at least two liters of water every day. I recommend a high impedance water for example Plöse or Osmosis water.
- 4.) Try to stimulate all ways of excretion through which the toxins can be channeled out of your body.
- 5.) Pay attention to your daily bowel movement. Support these irregularities through laxatives or enemas.
- 6.) Take a shower more often as usual to stimulate the

excretion of toxins through the skin.

7.) Move moderately until you realize that the sweat production begins.

8.) Perform a cleaning of the liver.

Please find a detailed instruction on the liver cleanse in the books *“Parasites – the Hidden Cause of Many Diseases”* and *“Therapietipps und Hausrezepte aus der Praxis Baklayan”*.

A. Unexpected side effects

For dealing with the consequences such as a wild dreams, headaches, tiredness, fatigue or the appearance of chronic infections I recommend you the following supportive measures:

1.) Suspend the zapping until the reaction reduces.

2.) Restart the zapping again and increase the treatment time gradually: Start 1 time 1 minute on the first day and increase the time slowly with 1 time 2 minutes on the second day and 1 time 3 minutes on the third day, etc..

If during this stagger you notice an unpleasant reaction, keep the dosage from the previous day, until the reaction decays again.

Should all the symptoms get worse in extreme reactions, it can be assumed that one out of the five regulation blockages is responsible, which must first be resolved separately before you continue with the treatment.

According to absence of research, we advice the patients fitted with a heart pacemaker not to use the Diamond Shield treatment.

We also recommend pregnant patients to avoid the usage of the Diamond Shield application. Regarding this, there also are no clinical examinations available, because such studies cannot be undertaken due to ethical reasons. However, some reports of pregnant patients must be taken into considerations that, according to their own statement, have used the

Diamond Shield without experiencing any negative effects for themselves or their unborn child. Rather, these women report that both of them with the appropriate application got significantly better. These statements make sense insofar as the detoxification of the mother's body also improves the living conditions for her developing child.

B. Recommendations for deacidification of the body's organism

- One day a week, exclusively eat a vegetable broth.
- Drink two cups 7x7 herbs tea daily.
- Take 3 times daily before meals 15 drops of Mineralvit Gold
- At night before going to bed take 4 tablets of Calmag.
- Take alkaline baths regulary.
- Take twice daily before meals two drops of Lactisol.
- Completely avoid any type of sugar, alcohol and wheat flour.

C. Drinking habits

A regular detoxication is a fundamental prerequisite for the body to maintain upright its innumerable vital function sequences. This natural detoxication on the other hand can only take place if the body is daily supplied with a sufficient amount of water¹.

Only so-called "unbound" water fulfills the premise that waste products can be bound and thus eliminated by the body.

A water molecule, which is, however, already bound to other materials, such as in the case of mineral water in minerals, has in its structure, no further binding capacity and thus can also not bind any toxins itself. Unfortunately, this simple interrelation has not been found for a comprehensive recognition in any professional circles. During the therapy with a Diamond Shield device it is absolutely necessary due to the releases of toxic substances, regardless of the inclusion of other drinks to drink at least two liters of still water daily. The most unexpected consequences of a Diamond Shield treatment alone are attributable to the disregard of this simple rule.

Out of our water pipes, despite the strict drinking water regulations in relation to other countries, unfortunately comes no free and unbound water. Due to physical examinations based on the measured water resistance, our tap water contains a large number of dead bacteria, heavy metals and environmental toxins.

Similar studies in our practice with several hundred samples of tap water from different households provided us with a clear result: In each sample there could be detected a load of heavy metals.

From this point of view our tap water has quality deficiencies. However, as already mentioned, it is absolutely necessary to support a Diamond Shield therapy with the sufficient absorption of high-quality water with a correspondingly high

¹ Recommended reading :The German book "Das Geheimnis des Wassers", Reinhold Will Knauer Verlag

resistance value. You should switch to a water which is processed through a reverse osmosis device (source see at the end) or to Plose spring water from the Tyrolean Alps. Among of all available waters this water contains the highest resistance value. Also make sure that the water is bottled in glass bottles but not in plastic ones.

The detoxication capacity of the Plose water is, in relation to a conventional tap water, ten to twelve times higher. Water which is produced by a reverse osmosis device, measures even up to 30,000 ohms. The investment in such a device in a multi-member family is worth it. Drink two liters daily, even though it will be difficult at the beginning. After about 6 weeks, your body will be adapted and will help you to obtain more vitality and joy!

More detoxication measures, in particular for cleaning the liver are described in detail in the books "Parasites – the Hidden Cause of Many Diseases" and the german brochure "Therapietipps und Hausrezepte" (Therapy Tips and Home Recipes) by Alan E. Baklayan.

Diamond Shield basic programs

Frequency programs, already installed on the Diamond Shield

Attention: It has been proven to stay earthed 50 minutes after the end of the program.

Diamond Shield - The protective shield for your health - 6:02Min. The Diamond Shield is the most important among all integrated programs in the Diamond Shield Zapper IE EMS because it can compensate the energy level of all meridians and therefore the negative influence will be harmonized. Because only unblocked meridians can maintain the immune system of the body, I recommend the Diamond Shield program for basic preventive compensation and / or prior to the application of subsequent ChipCards.

Find out more at www.diamondshieldzapper.com

Wellness program - 14 min - deep release
Feeling good again and sleeping program

Relaxation program - 8:22 min - Just relaxes
Attention, if the wellness program is not effective in insomnia, quietly try the relaxation program. It is important to stay earthed 50 minutes after the end of the program.

GS - analog to the Golden Stream program, which was developed by me (forerunner of the Diamond Shield program) - 6:02 min.

GR-M - *The standard program for influenza infections - 5 min*)* This program for acute complaints can be run 4 up to 5 times in a row to get up until a significant alleviation. In addition, I recommend in acute cases or for prevention to take high-quality natural vitamin C and antioxidants.

Sch-M- Cold program -8 Min. *) This program can be used for acute colds and complaints in the sinuses or in the area of the ears daily up to 4 times until a noticeable improvement occurs. In addition, I suggest you to get a nasal douche with a teaspoon of silver water. Afterwards very important: stay earthed!

Rü-M – *A specially Back-Program– 1-8 – 8 Min.*

Sz-M - *The pain program by Dr. Rife 13 min. *)*

This program is suitable for all kinds of pain and also helps in wound pain or pain after a radiation therapy. This program alternatively offers an application with adhesive electrodes.

Bo-M – *Lyme diseases – For the liberation of the Lyme disease- 39 Min*

You should not use this program at the beginning more than once per day with an intensity of 2.2 volts. You can then increase the voltage from day to day for 1 volt until each time you feel a slight tingling sensation. Reduce the voltage the next day when a too strong reaction on the frequency occurs.

I recommend sensitive users only to let through half program with the first frequencies to get started and the following frequencies gradually. In the case of a chronic illness it is important to take into consideration that a patient with Lyme disease infection often has complex secondary reactions. By a Lyme infection there can be formed autoimmune diseases and auto aggressive diseases. For chronic diseases and their consequences a BO-program application should be used very carefully and their parameters should be carefully weighed.

You can make further attempts using the extensive BO2 chipcard program.

Additional applications: A Lyme disease is the cause of many neurological, rheumatic or other diseases associated with an immune deficiency. For their treatment the BO-Chip can be extremely helpful. In fact, in a Lyme infection, the so-called chameleon among all pathogens, dozens of symptoms can be found.

Supportive therapy recommendations:

- Lyme disease often hides itself behind a load by synergetic coupled parasites. Test and treat these pathogens.
- On the BO-Chip there are frequencies integrated for all pathogens that may be responsible for the Lyme disease.
- Make sure to have a good balance.
- Practical experience showed that Samento in liquid form

is very effective as an important additive to support the Lyme disease therapy.

BK-blood frequency - 3.92 Hz - 30min. *)

The program of the BK blood frequency specifically combats blood parasites. Through the running arteries at the wrist a current will be conducted. For this the bracelets can also both be attached to one arm at a distance of about 10 cm. With its 3.92 Hertz the BK- Blood frequency by Dr. Beck lies clearly below the normally used high frequencies and is significantly more effective for this application. Due to its compatibility with theta waves emitted by the brain, it invigorates the resonance system of the body without the provoking of stress. A BK-blood-frequency application should always be perceived as pleasant. Always adjust the intensity so that only a slight tingling sensation is noticeable.

The direct way of the current in the blood represents the reason for the surprising success of the blood-electrification, at the biologically effective current through the arteries until reaching the organism. The actual current flow alone can put blood parasites within the blood out of action. In this way, electrified blood cells have a longer life. For this reason so many symptoms and health problems be remedied, for their solution no other means can be found.

Apart from natural detoxification reactions of the body, blood electrification causes no side effects. The Diamond Shield device can be mounted on the body during the use and also the corresponding electrodes, for this reason you have freedom of movement, thereby you can easy carry the application of BK blood frequency like all other Diamond Shield applications which can be easily carried out in everyday life. Using the Beck program, many users have already been able to fulfill their tasks with more freedom and power. To intensify the effect of the blood BK frequency I recommend you to take silver water and half a teaspoon VegiManna in a glass of water about a quarter of an hour before the application. You can find more information on VegiManna in the book "On the Curative Power of Vegetables" ba Stephan Wiede.

7-20-7-20-7 - 33,3KHz

This basic program includes a universal frequency according to Dr. Hulda Clark. For more detailed information, I recommend you the german book "Heilung is möglich" (Healing is possible) by Dr. Hulda Clark.

Constant zapp - 33,3 KHz - 60 Min. *)

The Constant zapp program also includes a universal frequency according to Dr. Hulda Clark and is to be used without a break.

Zappicator - 1 kHz - 30Min. *)

It is possible to energize food using the Zappicator. It also removes toxins or solvents contained in food or cosmetics. The book "Die Heilung für HIV und AIDS" (The Cure for HIV and AIDS) by Dr. Hulda Clark contains these detailed application recommendations.

Plate Zapping - 29Hz - 30 Min. *)

You can use this program for the transmission of frequencies to an external disk, whereby the effect to the individual organs will be more precisely aligned and thus the corresponding application can be intensified.

*) These minute values correspond to the period recommended for the program application

A (Asthma)

Great success

At a glance

Great success even with severe asthma

Bioenergetic Testing by therapist

Lungs meridian or directly to the lungs (by organ-filter-cartridge):
2-cup method, TRIKOMBIN

For self-help:

- METAL damping (5 elements) - daily
- Lu (lung) - every 2nd day
2 times a week:
- **BiBlo** eliminated bioenergetic blockages in advance
- **DTX** promotes excretion and detoxification
- **Diamond Shield Program** Basic balancing of energy levels

Intensive Therapy:

- **CAN** (Candida) intensified Candida therapy
- **ASP** enhances the elimination of Aspergillus
- **Par** important parasites - 2 times a week
- **imPar** immune system parasites

Recommended literature

A. E. Baklayan: ASTHMA, Publisher Michael

About the mode of action

The basis for the great success of this treatment, attributable to the discovery by Dr. Hulda Clark that in asthmatics a roundworm (Ascaris) is almost always located. Meanwhile, numerous scientific study results confirm the fact that roundworms and their larvae, like dust mites and also Aspergillus, almost always represent the triggers of allergic reactions such as asthma.

The frequencies contained in the Asthma-Chip eliminate effectively roundworms and their larvae, Aspergillus, house dust mites and Candida.

How to use

The application of the Asthma-Chip card should be necessarily therapeutic accompanied for patients with severe asthma.

For patients, who suffer under lighter pathologies of asthma, a treatment by the Asthma-Chip card is usually sufficient, such as for those who suffer for example exercise-induced asthma. This should be applied regularly over a period of about 8-12 weeks and supplemented by papain treatment (see page 25).

Application

Asthma 1-12

Time (minutes)

52 min

Please Note: Drain the Asthma-Chip immediately, as soon as possible, if you as asthmatic perceive an approaching attack or are already in a fit .

It is generally assumed that a severe asthma - suffering is always accompanied by a Candida infestation. For this reason, a long-lasting treatment success with definitive complaint freedom will be only set when the fungal infections caused by Candida and Aspergillus have been completely eliminated. Especially for the treatment of Candida is essential adherence to a strict diet (see below). Even in this case and at the same time a stable condition of the patient is the elimination of this fungal infection at the earliest possible after the expiry of four months, in exceptional cases only after about 1 1/2 years. An exemption from Candida within a period of 4 to 6 weeks is not possible, unlike the technical literature lays down.

Recommendation of an Asthma-Chip application for further appeals

Roundworms and Aspergillus infections also occur in bronchial asthma, bronchitis, pneumonia and most frequently by chronic cough. Even in a neurodermatitis and psoriasis, roundworms and Candida infections play almost always a role for their occurrence, for this an Asthma-Chip application is highly advisable.

Further intensification by Plate Zapping

The Asthma ampoule set consists of:

- lungs bronchi
- Ascaris Mix
- Aspergillus Mix
- House dust mite
- Tuberculosis
- Candida Mix

Results and experience of the Asthma-Chip application

Meanwhile, could document numerous fantastic healing results in asthma disease by a regular Asthma-Chip card application and the consistent compliance to the diet. In many other cases, Candida was tested after about 6-8 months only with 0.6 to 0.8 volts; the patients themselves were almost symptom-free at this time.

Patients who began to neglect their diet again considering these successes, old symptoms made quickly noticeable, and the test levels rose again into the air.

A resumed, strict continuation of the complete therapy program liberated these patients after a maximum of 1 1/2 years finally from their complaints. Also Candida spores could then no longer be detected.

Please note: The diet must be maintained only until the final outcome of the therapy.

Recommendations for a successful asthma therapy

- 1.) Usage for the treatment of roundworms: use the classical frequency according to Dr. Hulda Clark of 408 kHz.
- 2.) Avoid in consultation with your doctor as far as possible the use of asthma spray and use this only in real emergencies.
- 3.) For lasting success, I recommend you in the course of the therapy to retested frequently the voltage and accordingly change it. Start with the strongest testable current intensity and lower it off gradually.

4.) Begin the treatment for an acute asthma attack with an intensity of 6 volts and reduce it. In this way, you can identify the appropriate voltage. Thereby the roundworms life force will be the fastest reduce.

5.) You can improve the effectiveness of Asthma-ChipCard in which you attached the electrode fastened to the lilac wire directly to the affected area.

6.) The Candida infection has usually set deep in the lung pockets in patients who suffer of severe asthma. If the recommended diet will be interrupted, or the intake of prescribed means against the Candida infestation reduce, the fungus can be found directly back to its old strength.

7.) As a rule, the only reason for relapsing symptoms is the premature interruption of the diet.

The application of a Papain-cure for Asthma-Patients

- Before the daily doses of the papain capsules you should not have eaten for at least 2 hours.
- For a daily dose of 5000 mg of the active ingredient in the form of papain capsules (10 capsules x 500mg or 25 capsules x 200mg), take 1000 mg papain capsules (2 caps. x 500mg or 5 caps. x 200mg) every hour.
- Reduce the daily dose in the case of strong reactions such as abdominal pain and stinging or distribute the revenue to 3 days.
- Two hours after the last dose you can eat as usual, but low in protein.
- Continue taking the daily dosage for 6 days and then pause 10 days. Repeat this procedure until your symptoms subside.

The Candida Diet to remove the Candida fungus

Renounce completely to any form of sugar, fruit sugar, jam, maple syrup, honey, chocolate and sugary sweets, and sugar-free sweeteners such as saccharin, aspartame and cyclamate for the duration of the diet. Also prohibited are raw or cooked sweet fruits such as plums, peaches, grapes, oranges and

candied fruits or dried fruits such as figs, dates and apricots. Do not take fruit and grape juices, soft drinks, coke or alcoholic drinks. Nuts and almonds are also prohibited due to increased risk of mould fungus.

The consumption of pasta and white flour products is allowed in very little quantities. Crisp bread and whole grain bread, unsweetened cereal and rice should also be taken only moderately. Refrain from eating meat and sausages to pork and breaded. Fish and eggs are allowed just like milk, cheese, unsweetened sour milk products and butter. Eat potatoes, raw and cooked root vegetables, large radish, small radish, legumes, turnips, cucumbers, tomatoes, spinach, raw and cooked sauerkraut (special kind of cabbage), onions, garlic, garden herbs, spices and salt. Only drink unsweetened tea or coffee and water or mineral water.

Additional help for asthma

You can find more details and supportive means to asthma therapy in the German book: "ASTHMA" by Alan E. Baklayan, Michaels Publisher 2012.

Akn (Acne)

Bioenergetic Testing by therapist

Trichinella spiralis, Leishmania, Comedones

For self-help:

Supporting ChipCards

- **DTX** promotes excretion and detoxification
- **Diamond Shield Program** Basic balancing of energy levels

The chipcard contains Rife frequencies and Clark frequencies, e.g. Staphylococcus aureus, Nocardia asteroides, Ascaris megalocephala, Leishmania donovani.

Application

Akn 1-10

Time (minutes)

47 min

All (Allergy)

The Chipcard All – m contains 3 program sequences.

Application	Time (minutes)
Basic therapy	50 min.
Energy balance	20 min.
Plate zapping or acute allergic reactions	20 min.

The basic therapy contains frequency programs for the most important parasites, causing allergic reactions (ascaris, strongyloides, flukes, salmonellae). The program sequence should be applied at least 2 times a week.

The second program sequence for energy balance has a similar effect as an acupuncture application in allergy. The sequence should be applied at least once a week, on occurrence of favourable effects perhaps even daily.

The third sequence

1. can be applied on occurrence of acute reactions, directly for an immediate sedative effect, on occurrence of favourable effects perhaps even several times daily.
2. can be applied in combination with plate zapping, placing the respective allergen (food, pollen, house dust) onto the plate.

AR (anti-smoking)

Really easy way to stop smoking

At a glance

AR card and specific organ detoxification make it possible

Supporting ChipCards

- **DTX** enabled excretions and detoxification - daily
- **Diamond Shield program** promotes the basic balancing of energy levels - daily

Intensification of therapy:

- **Lu** (lung) - daily
- **L** (liver) - 2 times a week

Recommended reading:

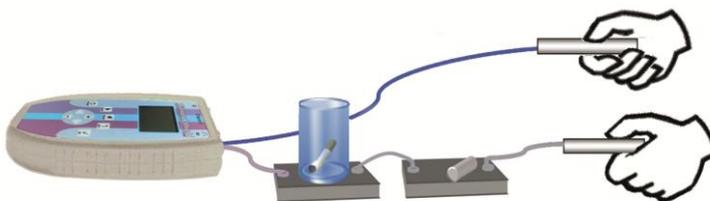

A. E. Baklayan: *German book: "Nichtraucher – jetzt – werden"*,
(Become a non-smoker) Michaels Publisher

About the mode of action

The anti-smoking program includes specially coordinated frequencies for the liver, lungs, blood and intestinal mucosa, which use is supplemented with ampoules for these organs. The combination of the serious intention to quit smoking, the application of the AR-Chips and a supportive removal of toxins leads to a high successfully treatment results.

How to use

At first, the cigarette is placed in a glass on a plate and the lungs ampoule on the second plate. This is followed by specific toxin removal for liver, lung, blood, and intestinal mucosa, which each last nine minutes. Subsequently, the positions of lungs ampoule and cigarette will be exchanged and the removal will be repeated.

Application	Time (minutes)
lung	10:00
blood	10:00
liver	10:00
intestines	10:00
mucous membrane	10:00

Results and experiences of the anti-smoking application

The Plate Zapping method described above calls out for 60-70 percent of all patients detoxification reactions. One side effect that could be most frequently observed is a sudden reluctance of patients to cigarette smoke to which they now react very sensitively. The typical withdrawal symptoms are noticeable minimally when as mentioned above the toxin removal process in the treatment is performed with cigarette.

Additional Tips

you will find all in-depth explanations and instructions for the treatment as well as information about any difficulties in the German book "Nichtraucher-jetzt-werden"(Become a non smoker) by Alan E. Baklayan.

Please note: The basic requirement for the success of anti-smoking therapy chip application and removal of toxins is the serious intention of becoming a non smoker.

ASP (Aspergillus)

The liberation of mould fungus in the body

At a glance

Specific frequencies against Aspergillus (mould fungus)

Bioenergetic Testing

At the scene, for example, lung meridian in asthma, liver meridian in liver burden

Supporting ChipCards

- Prepare with **BiBlo**
- **DTX** enabled excretions and detoxification
- **Diamond Shield program**
General balancing of energy levels

intensification:

- FVE - daily 8 min from the opening of the intracellular space

In addition:

Depending on the disease combined with other chip cards, for example, in asthma with asthma chip in liver exposure to the liver chip, etc.

About the mode of action

This chip card is therefore an essential part of the Diamond Shield therapy, as an infestation by Aspergillus plays a role in almost all diseases, for example in asthma, hay fever, strain on the liver and cancer. An ASP ChipCard application therefore also applies for alcohol detoxification and general difficulties with removal of toxins.

Application	Time (minutes)
ASP 1	07:00
ASP 2	03:00

Supportive therapy recommendations

As a supportive measure of the treatment against Aspergillus I suggest to take Samento, 2x 8 drops.

Important! For detoxification: Vegimanna, daily 1 teaspoon in a glass of lukewarm water

BaW (tapeworms)

Tapeworms always come with eggs and larvae. Therefore, the sweep of the entire area of this parasite is really important to ensure that all stages are recognized.

If there is a tapeworm, our tests show that other genera are there at the same time.

In this Chipcard, the 8 most important families and their frequencies are detected. It has been proven in tapeworm burden to let through all day.

Application

BaW 1-8

Time (minutes)

40 Min

Important support

Rascal, 2 capsules 3 times daily

Recommended literature:

A.E. Baklayan: Parasites – the Hidden Cause of Many Diseases

BB (high blood pressure)

Lower high blood pressure

At a glance

Frequencies against hypertension

Supporting ChipCards

- **BiBlo** eliminated bioenergetic blockages
- **DTX** promotes the excretions and detoxification
- **impar** strengthens the immune system against parasites
- **GewAbn** supports liver, bile and the metabolism
- **Diamond Shield program** promotes the general balancing of the energy levels

To intensify the effect experiment with:

- **WOOD damping**
- **FIRE damping**
- **EARTH damping**

Recommended reading:

A. E. Baklayan: A German book "*Parasiten – die verborgene Ursache vieler Erkrankungen*" (Parasites - the hidden cause of many diseases)

About the mode of action

The so-called blood pressure brake frequency is effective against any form of high blood pressure, if it is not associated with damage or diseases of the heart, blood vessels or kidneys.

How to use

The BB ChipCard is used every 2 days for 5 minutes each with an intensity of 0.5 volts. Throughout the duration of therapy, the blood pressure will gradually decrease for longer time in the range of normal values. If this is not the case, please extend duration of therapy and / or reduce volt input on. It is also possible to reduce slowly the frequency of applications on every 3rd day, then every 4th day and so on.

In case of not desired effect, try in this order:

Remeasure 1x WOOD sedation → blood pressure

Remeasure 1x FIRE sedation → blood pressure

Remeasure 1x EARTH sedation → blood pressure

Please take care of your blood pressure levels regularly; it would be best to be accompanied by a therapist.

For some patients, a daily use of the program is required. There is also evidence that in some cases, an application only after a twice running BB-frequency shows their impact and achieve successful results. Therefore, always pay attention exactly to the changes in your blood pressure.

Results and experiences of the BB ChipCard application

Practical results show that when using the BB-frequency high blood pressure can be reduced permanently, which is not in the context of organic damage. If such damage to the heart, vessels or kidneys where the blood pressure values fall likewise, but no lasting effect can be guaranteed

Also, sometimes regulation blockades as stress caused by obesity, electromagnetic or liver parasites prevent permanent sustained therapeutic success and therefore it has to be dealt with them at first.

Supportive therapy recommendations

I recommend the BB ChipCard application with the Diamond Shield Zapper IE EMS with a simultaneously occurring ingestion of wild garlic preparation (B) Remsen support, as both very well complement each other in their effect.

Begin the daily doses of (B) Remsen with 2x 3 drops and increase it slowly under constant control of your blood pressure on a daily dose of 8 drops twice.

Meanwhile the therapy must be supported by

- DermaVital, 2x 2 tablets
- Magnesium Malate, 1x 1 capsule
- Q10 Complex, 1x daily
- Vitamin E, twice daily

Please do not drink black tea and coffee during the entire duration of the therapy.

BiBlo (bioenergetic blockages)

For the dissolution of bioenergetic blockages

At a glance

Allow therapeutic success

Bioenergetic Testing

Nervous system (Meridian = Test point: index finger inside), triple warmer (= Meridian Test point: outside ring finger) and then also at the site of symptoms

Supporting ChipCards

- **DTX** enabled excretions and detoxification
- **Diamond Shield program** enabled the general balancing of energy levels

Recommended reading:

A.E. Baklayan: the German book „*Parasiten – die verborgene Ursache vieler Erkrankungen*“, Goldmann

About the Mode of Action

The stored frequency on the card BiBlo neutralizes negative effects of e-smog, radioactivity and scar burden; almost every patient is tested positively. For this reason it is advisable to use the BiBlo Chip prior to any treatment.

Application	Time (minutes)
laterality	03:00
geopathy	03:00
E-smog	03:00
Radioactivity	03:00
Scars	03:00
Sticky scars tissue	03:00

How to use

In the exercise of all bioenergetic testing methods, the influence of scars and other negative loads is high. Therefore, use this chip before a therapy, followed by the DTX Chip and subsequently test it to parasites or other charges.

Results and experiences of BiBlo applications

The therapy resistance of chronic pain is often based on non-suppressed scars. These can also be small scars caused by surgery or vaccination against smallpox, which block the development of a meridian. Often, after a carefully executed scar therapy, the pain level reduces spontaneously with the BiBlo card. Thereafter, if you let directly precede the Diamond Shield, the pain will subside further. So the BiBlo ChipCard is a significantly support for the success of different therapies, which in turn can increase the positive effect of other ChipCards.

Additional tips:

1) Bioenergetic blockages can easily be both under and overrated. However, a reasonable estimate and corresponding resolution is crucial for the success of a therapy. Any time when the effect of a therapy method gets into falter, the organism must be examined and treated concerning these blockages. Especially in the therapeutic regulation using biophysical frequencies can mitigate the effect of strong bioenergetic blockages.

2) The term "laterality disturbance" which comes from kinesiology term describes a today's widespread condition in which the two halves of the human brain no longer work properly together. The cause may be primary, the excessive exercise of a unilateral activity, hours of work in front of the computer as well as an exclusive activity in the artistic/creative field, may be held responsible.

3) Geopathic stress due to the influence of water veins can also be viewed as an additional-cause of a variety of diseases, as well as for example cancer. Physical impairments such as sleep, the fatigue syndrome or hyperkineses are often based on a corresponding right-handed loading. In addition to the application of BiBlo ChipCard itself, it is strongly recommended, especially for serious diseases like cancer, to change your own sleeping place.

4) Electrosmog pollutions are based on every electrical equipment. Patients with an electrosmog allergy should remove all electrical appliances and outlets from your sleeping area within a radius of at least 1.2 meters from your body.

Note: turn off electrical appliances is not sufficient!

5) Think also about the night lamp, the alarm clock, the electric blanket and the water bed. TV sets depending on their size should be up to four meters away from your sleeping area.

Contamination with radioactivity can pursue negative influence on your organism just as contaminated as Chernobyl or by past X-ray treatments.

7) Stay earthed after each application at least 50 minutes for discharging static and alternating loads (radicals).

The frequencies of the BiBlo ChipCard can neutralize the harmful effects, but long-term exposure freedom is necessarily desirable. Talk to a building biologist / dowser whom you trust. Attention! In our experience, expensive equipment and devices are no use at all based on long-term considerations. Exposure freedom is the better solution.

Note: Vitamin C and the daily intake of 500 mg of L-cysteine capsules support the excretion of radioactive pollution.

Recommended literature:

A.E. Baklayan: Parasites – the Hidden Cause of Many Diseases

B02 (Borreliosis/Lyme disease 2)

Application	Time (minutes)
Sequence 1 / 30 programs:	25 min. 30 sec.
Sequence 2 / 26 programs:	37 min. 12 sec.
Sequence 3 / 35 programs:	34 min.

The sequences contain tested frequencies in their optimal intensity adjustment.

Please apply carefully: Each sequence on another day. Only when you feel better, you can try to apply several sequences successively.

See standard program BO:

In case of a chronic disease it is important to take into consideration that a patient with Lyme disease infection often has complex secondary reactions. By a Lyme infection there can be formed autoimmune and auto-aggressive diseases. For chronic diseases and their consequences a BO-Chip application should be used very carefully and their parameters should be weighed carefully.

A Lyme disease is the cause of many neurological, rheumatic or other diseases associated with an immune deficiency. For their treatment the BO-Chip can be extremely helpful. In fact, in a Lyme infection, the so-called chameleon among all pathogens, dozens of symptoms can be found.

Supportive therapy recommendations:

- Lyme disease often hides itself behind a load by synergetic coupled parasites. Test and treat these pathogens.
- On the BO-Chip there are frequencies integrated for all pathogens that may be responsible for the Lyme disease.
- Make sure to have a good balance.
- Practical experience showed that Samento in liquid form is very effective as an important additive to support the Lyme disease therapy.

BR (Bio-regeneration)

Promotes bio-regeneration

At a glance

Relief in cancer and other biodegenerativen loads

Supporting ChipCards

- DTX enabled excretions and detoxification, 2 times weekly.
- Diamond Shield program enabled the General balancing of energy levels, 2 times weekly.
- ImVir, 2 times weekly.
- impar, 2 times weekly.
- BiBlo, 2 times weekly.

Intensification:

- **CLST** against all clostridial species
- **FVE**
- **HSX** (herpes and Epstein Barr Family)
- **EBV** Epstein Barr virus
- **Virus**
- **IM** immunomodulation
- **Reg2/cancer 2**
- **ASP** Aspergillus
- **Cand**
- **Fungi**
- **Par** Important parasites

Recommended reading: The german books
A.E. Baklayan: *Krebs – Therapie und Forschung*
Tamara Lebedewa: *Krebserreger entdeckt*
Hulda R. Clark: *Heilung aller fortgeschrittenen Krebsarten*

Mode of Action

Today we know that for the development of cancer countless pathogens such as roundworms, trichomoniasis, F. buski, Fasciolopsis miracidia and in particular Clostridium, Candida and Aspergillus are significantly involved. The BR-Chip serves to specifically fight against all these pathogens. In her book "Discovered carcinogen" illuminates the Russian researcher Tamara Lebedewa the link between trichomoniasis and the development of cancer in greater detail. Additional information on this topic is available on request or within one of my events about cancer.

Application	Time (minutes)
Ascaris 1-3	each 03:00
Ascaris larvae	02:00
Trichomonas	14:00
Trichomonas 2	03:00
Fasciolopsis buski	05:00
Clostridia 1	03:00
Clostridia 2	02:00
Clostridia 3	02:00
Clostridia 4	03:00
Candida	03:00
Aspergillus	03:00

Before the daily application of the BR-Chips you should be informed in detail about the scope and background of the therapy. To this end, I recommend you to read the further german script "**Krebs – Therapie und Forschung**" (*Cancer – Therapy and Research*) by Alan E. Baklayan or the books published by Dr. Hulda Clark on this topic.

Additional application

The application of the BR-Chips can help to ensure that the cancer does not form again after a conventional treatment such as chemotherapy, and is suitable for prevention in general cancer risk or on pre-cancerose patients with positive results.

Please note: The BR-Chip is used only for the support of cancer therapy. In addition, the individual, further aspects of the disease must be considered individually and therapeutically.

More about this topic

For more information on this topic I recommend you additionally to the reading of "carcinogen discovered" by T. Lebedeva, to attend one of my cancer seminars and the script written by me: "Cancer Therapy and Research." This script was written specifically for patients and includes numerous insights about cancer, the current state of the therapy and most of my lectures on this topic.

CAN (Candida)

Permanent removal of Candida infections

At a glance

Refined developing sustainable exempt from Candida

Bioenergetic Testing

Wherever Candida is detected, at every conceivable Meridian

Supporting ChipCards

- **DTX** enabled excretions and detoxification
- **Diamond Shield program** enabled the general balancing of energy levels

Recommended reading:

A. E. Baklayan: The German book: *Parasiten – die verborgene Ursache vieler Erkrankungen*

About the mode of action

To determine the long list of suitable frequencies in the development of this ChipCard, all Candida species were systematically tested. Due to the ChipCard application the Candida spectrum may be completely covered. The body can store the generated frequencies through the therapy over four days in the body. For this reason, a corresponding application in the four-day cycle has proven particularly useful to elicit a sustained, daily renewing effect without stressing the body itself too strongly.

The Candida-Chip treatment is ideal to support all therapies of symptoms, for which an integral part is to be identified to be caused by a candida infection.

Day 1	Time (minutes)
1-5	20:00
Day 2	Time (minutes)
6-10	17:30
Day 3	Time (minutes)
11-15	20:00
Day 4	Time (minutes)
16-19	15:00

Please note: The application of Candida ChipCard can only be recommended in conjunction with a candida diet, otherwise the entire therapy is inconclusive.

Also required are the use of natural, antifungal preparations such as silver water, Cumanda, Oil composite Syzygium aromaticum, Grapefruit seed extract, Mannayan Cand. For more detailed information please refer to the recommended literature and the brochure "therapietipps tips und Hausrezepte".

Results of the candida Therapy

The CAN Chip application has proven itself very well as a supportive measure for Candida therapy. The duration of the total therapy could be reduced by about one third. The patient has to stick definitely to their diet for the entire duration of therapy.

For some patients, an immediate onset of relief of various Candida symptoms such as itching or irregularities could be determined in the stool. Insofar as the patients stick to the recommendations no side effects (Herxheimer syndrome) could be observed.

CLST (Clostridia)

At a glance

Relief in cancer and other degenerative pollutions

Supporting ChipCards

- **DTX** enabled excretions and detoxification
- **Diamond Shield program** promotes General balancing of energy levels

Recommended reading

the german book: Krebs - Therapie und Forschung von from A. E. Baklayan (cancer)

About the mode of action

Clostridium, based on current knowledge, play a crucial role in degenerative diseases. The clostridial ChipCard fight these spore-forming pathogens highly targeted. It includes frequencies from the clostridial family.

Application

CLST 1-3

Time (minutes)

20:00

Recommended

Apply 1x daily

Other applications

The CLST ChipCard is a valuable support for cancer therapy. Also the CLST ChipCard for intestinal flora therapy and stove therapy in dead and root-treated teeth has proved to work out. According to the findings from my practice may slow cancer growth in certain cases, the clostridial therapy.

Therapy tips

For focal therapy and degeneration of the intestinal flora the addition of Samento, colloidal silver and Mannayan Flor has been proven to work well.

Supplementary information

In addition to the tumor-seminar of the script "cancer-treatment and research" by AE Baklayan with numerous findings on cancer is recommended. This script was written specifically for cancer patients of the medical practitioner practice Baklayan and includes the status of the therapy as well as most lectures by AE Baklayan about the subject.

Crystal

A revolution in application of Zapper technology

At a glance

Deep regulation of the entire meridian system

As ChipCard or preprogrammed in the Crystal Zapper IE EMS

Application

Crystal 1-2

Time (Minutes)

100:00

2 sequences with a total of 252 frequency programs
As chipard program or preprogrammed in the special Crystal-Zapper-Model – a Diamond Shield Zapper IE EMS with Crystal-Program and additional functions.

Development of the Crystal Zapper

After natural health professional Baklayan discovered that the frequencies of all the meridians of Chinese acupuncture are related to each other in a mathematical ratio, he developed the harmonic frequency application. The continuation is the development of the Crystal program. His further research confirmed his suspicion that all points of an acupuncture meridian follow these laws.

Biology is known to consist of structures that must remain in order. Around each acupuncture point normally there is an electric field.

These fields are disturbed by anything that does not belong, i.e. all possible pathogenic factors.

To restore these arranged fields that are necessary for the proper functioning of all bodily functions, you only need to let them vibrate in the frequencies that can reappear and structure this arranged field.

To reinforce this effect modulations and other levels have been integrated. Then these “arranging frequencies” were gradually lined up with exact mathematical time lengths and pauses.

In applying this program all the structures of the entire body are again rearranged.

These specific frequencies of the acupuncture points of the body are used to restore the lost structures of the tissue, namely one area after the other, with the acupuncture point as the center. Many points are internally connected to other branches of the meridian system. This makes the application reach the deepest layers of the body.

In Asia for thousands of years it has been known that in the area below the navel, the “sea of energy” is located, as a reservoir of energy for the entire body, by which all meridians are supplied.

Thanks to a special belt the frequencies in the form of micro currents are directly fed into the “sea of energy” and resonate with the corresponding point, which organizes its surroundings.

Bioenergetic tests have shown that in the areas around the acupuncture points all structures (tissue and metabolism) arrange themselves, in other words, all the foreign structures cannot exist there any longer, i.e. environmental toxins, parasites, bacteria, Borrelia, viruses, molds. Nothing that does not belong there can exist there.

Mode of action:

The effect is gentle, because during daily use the structures of the body are rearranged for a period of time, which leads to the fact that within these structures all sickening loads cannot stay, as they are not part of this structure (analogous to Chladny figures). This creates a deep and thorough cleansing and detoxification of the whole body. The structure of the tissue regains its crystalline arranged structure: therefore Hp Baklayan named it “Crystal program”.

Explanatory model of the mode of action:

Bioenergetic tests have repeatedly shown that all loads when retested 24 hours after the application of the Crystal Zapper program, always reduce approximately 10 percent compared to the value of the previous day. This process seems to continue for a very long time. In other words, the longer it is applied, the deeper is the effect.

Every day or every second or third day on which this Zapper or this program is used, brings a further and deeper cleansing of the body.

It has been shown that after the coarser loads in the body are not testable anymore because the general structure of the body has adjusted, the next hidden places where these loads stay, are reached.

Typical locations are the intestinal pockets under the layers of fecal materials, sinuses, appendix, tonsils, teeth, middle ears, lymph nodes, joint cartilage (which only have little blood supply). After the outer layers of the tissue have been arranged, it is time for these deeper layers.

In a world in which the loads and environmental toxins increase every day and without ceasing, we should definitely rearrange the structures of our body and daily promote detoxification. We need to detoxify and cleanse the body constantly. The Crystal Zapper program is an ideal way to detoxify and structure the body more deeply from within.

The difference between the Diamond Shield and the Crystal program

While the Diamond Shield program, as the name indicates, is a basic treatment to protect the body from the outside against all influences as a shield by flushing the meridians, creating a better flow, and through the energy network of the body readjusts healing processes,

the Crystal program assigns around each acupuncture point of each meridian all structures and the ones with which this meridian is connected. It detoxifies this area further and deeper.

The Crystal program is available in two different forms:

from a Crystal chipcard or as preinstalled standard program on the special Crystal Zapper. This device contains all programs and features of the Diamond Shield Zapper and additionally the Crystal program, a memory function (all can be resumed where you stopped at the last session), a keylock and an alarm clock function (Up to two different sequences can be set for an automatic start. The start can be set either with or without audible signal; it can also, for example, be set for every other day.)

When using the Crystal Zapper the user does not necessarily need to be grounded because the programs run with micro currents, i.e. well below 1 volt, and no negative electric

charges and radicals can arise here. So you can run around with the invisible belt or even go to bed at night. Environmental toxins and pathogens hiding in the deepest layers are reached, and gradually and gently discharged until the intracellular space is reached. For this reason and according to similar bioenergetic testings it may take up to 8 months until the cleaning process is complete.

For further information see

<http://diamondshieldzapper.com/en/diamond-shield-crystal-zapper/>

DB (Diabetes)

Stabilization of blood glucose levels

At a glance

Only the proper frequency combination really supports

Bioenergetic Testing

Pancreas, small intestine meridian. During the application control: lymphatic system, nervous system

Supporting ChipCards

- Prepare with **BiBlo**
- **DTX** enables excretions and detoxification
- **Diamond Shield program** enabled the General balancing of energy levels
- **CAN** (Candida) enhanced therapeutic effects
- **ASP** (Aspergillus)
- **PaReg** pancreatic regulation
- **EG** (4 flukes)

Recommended reading: A.E. Baklayan: Parasites – The Hidden Cause of Many Diseases and Dr. Hulda Clark: *The Cure for All Diseases* (especially Chapter *Diabetes, Fluke Disease, Diabetic Diet and Sorghum mold*)

About the mode of action

The frequencies of the DB-Chip are active against pathogens and stresses that very often are accompanied by diabetes, such as coxsackie virus, Aspergillus and Candida fungus (in the pancreas). For successful treatment there also is special frequency aiming at the pancreaticum on the Eurytrema, the pancreatic fluke. According to test results, each patient affected by youth or adult diabetes is affected by this fluke, which is found exclusively in cows under normal circumstances. This discovery was made by Dr. Hulda Clark and wrote about it in her book "The Cure for All Diseases".

The Eurytrema pancreaticum engages in glycolysis or in the entire sugar metabolism in the human organism. For this reason, the fight against this leech causes some people a quick stabilization of the sugar level. Considering a Diabetes-Chip application should always be accompanied by a detailed, daily held glucose measurement.

Application

Diabetes 1-23

Time (minutes)

each 03:00

Additional applications:

- Since the Eurytrema pancreaticum often participates in the formation and spread of cancer, the DB-Chip can also support a cancer treatment. You can simply try out similar results.
- The program can also successfully help treat infections caused by Coxsackie viruses.

Supportive therapy recommendations:

- Always make sure to couple the pancreas together with the Candida, otherwise quickly one of the two loads can be overlooked.
- The DB-Chip may affect the actual need for insulin in insulin-dependent patients. Do not miss out, therefore, to make a daily measure of your glucose levels in order to prevent such a hypo may.

Information on the elimination of heavy metals, you can read in the brochure "therapy tips and home recipes" by A. Baklayan (available at DermaVit) and in the book "Parasites – The Hidden Cause of Many Diseases".

DS2 (Diamond Shield)

This ChipCard contains the Diamond Shield program and allows to call at each single meridian. For example in pain therapy with electrodes position directly on the meridian.

Application	Time (Minutes)
Lu	2:30
LI	2:30
St	2:30
SP	2:30
Ht	2:30
SI	2:30
Bl	2:30
Kd	2:30
Pe/Ci	2:30
TW	2:30
Gbl	2:30
Lv	2:30

DTX (Detox)

Important facts about detoxification

At a glance

Regular detoxification is a prerequisite for success

Bioenergetic Testing

Meridian points for colon, kidney, liver and lymph

Supporting ChipCards

- Diamond Shield program enables the general balancing of energy levels

Intensify:

- **LY** lymph
- **L** Liver
- **Ni** kidney

Preparations

Support the weak elimination pathways in their function. More information you can find in the „Therapy Tips“

About the mode of action

The DTX-Chip contains the most important TREF frequencies for detoxification of intestine, kidney, lymph and liver. The abbreviation TREF here refers to "Terrain-regulation with electrical frequencies". These frequencies, which I rediscovered from ancient literature, have the ability to optimize systems such as the acid-base balance, hormone regulation, the blood, the nervous control and the sympathetic and parasympathetic. For more information I recommend you to my introductory seminars.

How to use

I recommend you to apply the DTX-Card for a detoxification therapy once per day at an intensity of 4.2 volts. Should there be other toxins discharged from your body by another therapy, please use the DTX-Card only 2 times per week with 4.2 volts in order not to limit the effectiveness of this therapy.

Application	Time (minutes)
Kidney 1	03:30
Colon 1	03:30
Kidney 2	03:30
Liver 1	03:30
Colon 2	03:30
Gallbladder 1	03:30
Lymph 1	03:30
Gallbladder 2	03:30
Lymph 2	03:30
Liver 2	07:00
Match 3	03:30
Liver 3	03:30

Additional uses

A detoxification makes sense with all therapies almost without exception. If testings show, for example, that several meridian points are weakened, you should go through this chip in any case.

Results and experience of the Detox therapy

Two therapists independently from each other reported that horses very often reacted to a regular DTX-Chip treatment with immediate urination. This observation indicates that the DTX-Chip directly stimulates the excretion of toxins that have quietly accumulated within the body.

A cancer patient always used the DTX-Card treatment directly after their chemotherapy. Because of the color and smell of her urine she realized that she was directly excreting the chemotherapeutic agents again. In direct correlation it could be found out that the chemotherapy-induced side effects declined sharply. With the regular application of DTX-frequencies the patient felt much better than before.

Supportive therapy recommendations:

To facilitate the course of detoxification processes during the therapy, you can help the institutions through various means such as herbal extracts of kidney and liver.

The DTX-Card is one of the most commonly used bio-chips. Numerous colleagues attest positive effects in all the seminars. It can be used with all signs of poisoning, congestion and blockages such as dry skin or pale urine.

EBV (Epstein Barr Virus)

The final out for Epstein Barr

At a glance

Activation of protection against all types of EBV

Bioenergetic Testing

Viruses can be tested well on the nervous system, the hormone system and the lymphatic system. Open the IZR with the FvE ChipCard 7 minutes prior to this.

Supporting ChipCards

- Prepare with **BiBlo**
- **DTX** promotes excretion and detoxification
- **ImVir** protects the immune system against viruses
- **Diamond Shield Programm** activates the basic balance of energy levels
- **HSX**

About the mode of action

The EBV-Chip contains very effective frequencies against EBV and frequencies for the activation of the immune system specifically against viruses.

Application

EBV 1-6

Time (Minutes)

21:00

Please note: At the beginning of therapy symptoms can get worse in patients who carry EBV. In such case please discontinue the use of the EBV-sequence and start the treatment after symptoms have resolved.

Additional applications:

- Cytomegalic inclusion disease, Epstein-Barr virus and Herpes virus may provoke symptoms in all kind of different forms, such as, for example, chronic fatigue, exhaustion and swelling of lymph nodes.
- In these cases it can be of use to individually test to what extent the EBV-Card can produce relief.
- Often EB viruses can be identified as contributory cause of skin burning sensation.

Supportive therapy recommendations:

- In my office Takuna as additional remedy for the treatment of the viral load has proved to be very successful.
- At the same time I recommend you to strengthen your body's own immune defense by undergoing a basic therapy with the help of the Diamond Shield-Program, additionally the solution of bioenergetic blockages with the help of the BiBlo-Card, as well as a detoxification supported by the DTX-Chip.
- Please note: Because of the fact that herpes viruses occur inside the cells you should open the intracellular space with FvE prior to the testing.
- Manna Glucan, 1 tablet once a day
Takuna, 8 drops twice a day
Samento, 8 drops twice a day

EG (4 flukes)

Strengthening against parasites

At a glance

Generally activates the immune system against flukes

Bioenergetic Testing

Symptomatically according to the diagnosis

Supporting ChipCards

- **Diamond Shield Program** activates the basic balance of energy levels

Intensification:

- **Par** Important parasites
- **BaW** Tapeworms
- **L** Liver

Recommended literature

A.E. Baklayan: *Parasites – the hidden cause of many diseases*

About the mode of action

The EG-Chip contains frequencies of the 4 most important flukes

- Fasciolopsis buski
- Fasciola hepatica
- Clonorchis sinensis
- Eurytrema pancreaticum

and frequencies for the activation of the immune system specifically against parasites.

Application

EG 1-6

Time (Minutes)

41:00

Results of the therapy

The high effectiveness of the EG-ChipCard was confirmed by practical results. During the course of the therapy a rapid improvement of the test values against parasites occurs visibly.

Supportive therapy recommendations:

- Parasites certainly should not be underestimated in the development of many diseases. Jointly with other factors they depict the main cause for chronic symptoms, such as, increased venosity, allergies, menstrual pain, migraines, rheumatism and intestinal disorders.
- Alongside therapy I recommend you a diet that, if possible, avoids animal protein because it serves as the main aliment for parasites.
- Effective herbal remedies, such as energized noni juice, juglandis or papain capsules, which are also used effectively against parasites can successfully support the therapy. You will find further indications in this recommended literature "Therapietipps und Hausrezepte aus der Praxis Baklayan" (not yet available in english)
 - o Papain treatment (see page 25)
 - o Rascal, 2 capsules 3 times a day
 - o Walnut tincture, 2 drops in water 1 times a day
 - o Juglandis, 1 tablespoon 3 times a day
 - o Manna Clean, 1-3 capsules in the evening

FVE (following of emotions)

Compensate for emotional distress, adjusting the cancer metabolism

At a glance

Frequencies to reduce mental stress, stop cancer metabolism

Bioenergetic Testing

Internal environment, cleaning ampoules after illnesses

Supporting ChipCards

- Prepare With **BiBlo**
 - **DTX** enables excretions and detoxification
- In addition about cancer: BR promotes Bioregeneration
- **IM** stimulates the immune system
 - **impar** strengthens the immune system against parasites
 - **ImVir** strengthens the immune system against viruses
 - **Diamond Shield program** enables the general balancing of energy levels

About the mode of action

The stored frequencies on the card FVE cause an opening of the intracellular space, a reduction in the metabolism of cancer as well as a restoration of collapsed tension within the cellular network. The voltage of the cell assembly may have been reduced under the influence of different kinds of stress and exhaustion even from the distant past.

Application

FVE

Time (minutes)

07:00

Increase the daily treatment time gradually up to 20 minutes
Attention! During long periods of use, take necessarily detox preparations:

- Vegimanna, 1x 1 teaspoon in warm water
- Bitterstern, 2x 8 drops

Treatment results:

Through deep relaxation in the patients repressed and unconscious mental blockages will be dissolved.

The cancer metabolism will be blocked.

GewAbn (weight regulation)

Simple and natural body weight regulation

At a glance

Hormone frequencies stimulate the metabolism

Supporting ChipCards

- Prepare with **BiBlo**
- **DTX** enables excretions and detoxification
- **Diamond Shield program** enables the general balancing of energy levels
- **HO** Hormonal Imbalance

The application of the GewAbn ChipCard provides a supportive measure for weight management. Both sides kidney, adrenal gland and metabolism are stimulated by the corresponding frequencies.

Application

GewAbn 1-5

Time (minutes)

each 03:00

For the supportive function of this ChipCard an intensity of 4.2 volts is enough. The application should be accompanied by a diet.

Patients with severe problems with losing weight, I recommend to remove the wheat products completely from your diet, as these often cause a blockage. Due to the strict waiver of wheat products and a parallel, regularly treatment with the ChipCard, usually uniform weight loss can be achieved, without the patient increasing weight again after the diet.

Please Note: The application of the chip cannot compensate for unhealthy life management. Healthy eating and a time-limited diet (carbohydrate-poor) and regular exercise (3 times a week a pleasant sweat) are among the absolute performance requirements for slimming.

Therapy results

I was surprised myself about how quickly the success occurs. Many users have told me, even without dietary changes and diet within 2 weeks to have lost 2 to 3 kg. Especially in patients who unsuccessfully tried for years to lose weight permanently, the GewAbn chip showed good results. The cause of this astonishing success is that with a weight loss blockade the weight reduction can be initiated only by the stimulation of the metabolism. Using the stimulation of the adrenal gland and the regulation of the thyroid introduced by the therapy, unnecessary waste can be burned and reduced.

Supportive therapy recommendations:

Vermella Slim

Vegisan

He (Heart)

This ChipCard supports the essential functions of the heart and all arterial and venous diseases, pain in the cardiac region, heart sensation of every kind.

Combination with:

- **LY** Lymphatic drainage
- **DTX** Detox
- Diamond Shield Program
- Grounding
- Relaxation program
- Wellness program
- **BiBlo** Bioenergetic blockages

Support with:

- **FIRE Damping**
in case of feeling of constriction, restlessness
- **FEUER Support**
in case of palpitation, anxiety, insomnia

Hep C (Hepatitis C)

Effective elimination of hepatitis C

At a glance

Frequencies against hepatitis C and other hepatitis viruses

Supporting ChipCards

- **BiBlo** dissolves energy blockages
- **DTX** enabled excretions and detoxification
- **imPar** strengthens the immune system against parasites
- **ImVir** strengthens the immune system against viruses
- **Diamond Shield program** enabled the General balancing of energy levels

About the mode of action

The Hep C ChipCard contains specially frequencies effective against Hepatitis C, which is also, can be employed against other hepatitis viruses.

Application

HepC 1-5

HepC 6

HepC 7-9

Time (minutes)

each 02:00

05:00

each 02:00

Therapy results

The Hep C Chip was developed on the basis of results of therapy, after the application of the frequencies in patients with Hepatitis C, no viral load of Hepatitis C could be detected. Since then, it is applied very successfully.

Supportive therapy recommendations:

- Note: viruses are often hidden in flukes as Fasciolopsis buski and Fasciola hepatica, which then must also be subjected to an appropriate application.
- Make sure you also take the natural antiviral agents Samento, Takuna and Mannayan Glucan, 1x 1 tablet daily during the treatment.

HNO (Ears-Nose-Throat)

Interference-free Ear-Nose-Throat-area

At a glance

Shortening of a bacterial infection

Bioenergetic Testing

Nervous system, Lymphatic meridian, Lung meridian

Supporting ChipCards

- Prepare with **BiBlo**
- **DTX** promotes excretion and detoxification
- **ImVir** protects the immune system against viruses
- **Diamond Shield Program** activates the basic balance of energy levels
- **SN Cold Program**
- **Sin** Sinusitis
- **Bak** Bakteria
- Stay grounded **for** 50 minutes after the end of the program.

This ChipCard contains classical frequencies as streptococci and staphylococci for the treatment of bacterial infections. Suggestions by different therapists who were looking for new therapeutic options for children motivated me to develop this ChipCard.

Application

HNO 1-7

Time (Minutes)

each 05:30

How to use

- In case of acute infections the chip can be applied 2 times a day. In doing so use only the maximum of intensity at which no tingling sensation is noticeable. Take particular care of the child's delicate skin on which redness can be caused easily. In case of doubt reduce the intensity to 1 Volt.
- If the sinuses are unclogged to the degree of the possibility of a removal of the final bacterial products, a quick relieve of symptoms will occur. In this case a treatment can be carried out 3 times a day.

- In case of chronic infections as, for example, suppurative sinusitis and suppurative otitis media apply the chip once a day. This also applies to the times free of symptoms because this is the only way that it will be possible to permanently eliminate the bacterial source of infection.

Please note: In case of deep-seated infections, for example, in the area of the inner ear or the bones of the frontal sinus the drainage via the lymphatic system needs to be supported. For this approach the taking of Mineralvit Gold and Mineralsalz is particularly suitable as well as drinking lots of liquids, a detoxification using the DTX-Card and the taking of medicine that aids the kidneys and the liver, e.g. Dermaclean L and N.

Additional applications:

The programs of the ENT-Chips are highly suitable for the treatment of discomfort of all kinds that are caused by a bacterial coccal infection, as, for example, a cold, an abscess, a mucosal infection, as well as an infection in the eyes, knees and joints, kidney inflammation and pneumonia.

Results of the therapy:

In my seminars pediatricians and doctors repeatedly tell me of their success during the treatment of infections in children with this ChipCard. According to information received from an ENT specialist he uses them regularly with large success in his infantile patients.

Supportive therapy recommendations:

- Initiate the frequencies of staphylococci and streptococci as well as additional frequencies that are listed in the "Rife" tables and the therapy of the source of infection by nasal irrigation and high doses of vitamin B2.
- Activate the detoxification and the drainage of the lymph by using ChipCard LY and taking Vitamin C and Echinacea.
- Taking of antioxidants: Mannayan Antioxi, 1 tablet once a day.
- Radicals will be discharged by staying grounded for 50 minutes after the end of the application.

HSX (Herpes simplex)

The final out for Herpes

At a glance

Activation of protection against all types of herpes

Bioenergetic Testing

Viruses can be tested well on the nervous system, the hormone system and the lymphatic system. Open the intracellular space with the FvE ChipCard 7 minutes prior to this.

Supporting ChipCards

- Prepare with **BiBlo**
- **DTX** promotes excretion and detoxification
- **ImVir** protects the immune system against viruses
- **Diamond Shield Programm** activates the basic balance of energy levels
- **EBV** Epstein Barr Virus

About the mode of action

The HSX-Chip which is called after its primary application Herpes Simplex also contains frequencies that treat Herpes zoster, Herpes type 6, Herpes progenitalis, EBV and cytomegalic inclusion disease. It provides all-round protection against all the viruses which originating from the same family of viruses commonly appear jointly in corresponding infections.

Application

HSX 1-10

Time (Minutes)

each 05:30

Please note: At the beginning of therapy symptoms can get worse in patients who carry Herpes zoster. In such case please discontinue the use of the HSX frequency and start the treatment after symptoms have resolved initially with the Herpes frequency.

Additional applications:

- Cytomegalic inclusion disease, Epstein-Barr virus and Herpes virus IV may provoke symptoms in all kind of different forms, such as, for example, chronic fatigue,

exhaustion and swelling of lymph nodes. In these cases it can be of use to individually test to what extent the HSX-Card can produce relief.

- An infection with Herpes zoster is often observed to be the trigger for trigeminal neuralgia.
- Often herpes viruses can be identified as contributory cause of skin burning sensation.

Supportive therapy recommendations:

- In my office Takuna as additional remedy for the treatment of the viral load has proved to be very successful.
- At the same time I recommend you to strengthen your body's own immune defense by undergoing a basic therapy with the help of the Diamond Shield-Program, additionally the solution of bioenergetic blockages with the help of the BiBlo-Card, as well as a detoxification supported by the DTX-Chip.
- Please note: Because of the fact that herpes viruses occur inside the cells you should open the intracellular space with FvE prior to the testing.
- Manna Glucan, 1 tablet once a day
Takuna, 8 drops twice a day
Samento, 8 drops twice a day

IM (Immune modulation)

Stimulating the immune system

At a glance

More energy for the immune system

Supporting ChipCards

- Prepare with **BiBlo**
- **DTX** promotes excretion and detoxification additionally for cancer: BR promotes bioregeneration
- **ImPar**
- **ImVir**
- **Diamond Shield Program** activates the basic balance of energy levels

About the mode of action

The IM-card ensures a non-specific stimulation of the entire immune system.

Application

IM 1-10

Time (Minutes)

each 03:30

Results of the therapy

The IM-ChipCard has proved to be very popular and can be used at any indication for temporary or chronic immune deficiencies which express themselves through, for example, persistent colds and influenza.

In patients who currently have a cold the IM-ChipCard should always be used prior to the treatment with other ChipCards.

Supportive therapy recommendations:

As additional stimulation for the immune system I recommend you the products Barberry, Samento, Takuna and Banderol, furthermore DermaVital, 2 tablets twice a day.

ImPar (Immune system parasites)

Strengthening against parasites

At a glance

Generally activates the immune system against parasites

Bioenergetic Testing

Symptomatically according to the diagnosis

Supporting ChipCards

- **Diamond Shield Program** activates the basic balance of energy levels

Intensification:

- **4 large leeches**
- **Par** Important parasites
- **BaW** Tapeworms
- **L** Liver

Recommended literature

A.E. Baklayan: *Parasites – the hidden cause of many diseases*

The particularly effective mode of action of this ChipCard consists in it, that it strengthens the immune system against parasites in general. It contains the classic Rife frequencies which do not focus on specific parasites and in this way they assist the entire organism effectively in combating parasites of any kind.

Application

ImPar 1-4

ImPar 5

ImPar 6-12

Time (Minutes)

each 02:00

04:00

each 02:00

Results of the therapy

The high effectiveness of the ImPar-ChipCard was confirmed by practical results. During the course of the therapy a rapid improvement of the test values against parasites occurs visibly.

Supportive therapy recommendations:

- Parasites certainly should not be underestimated in the development of many diseases. Jointly with other factors they depict the main cause for chronic symptoms, such as, increased vensosity, allergies, menstrual pain, migraines, rheumatism and intestinal disorders.
- Alongside therapy I recommend you a diet that, if possible, avoids animal protein because it serves as the main aliment for parasites.
- Effective herbal remedies, such as energized Noni juice, Dermaclean Juglandis, Rascal or Papain capsules, which are also used effectively against parasites can successfully support the therapy. You will find further indications in this recommended literature "Therapietipps und Hausrezepte aus der Praxis Baklayan" (not yet available in english) and "Parasites – the Hidden Cause of Many Diseases".
 - o Papain treatment
 - o Rascal, 2 capsules 3 times a day
 - o Juglandis, 1 tablespoon 3 times a day
 - o Manna Clean, 1-3 capsules in the evening

ImVir (Immune system viruses)

Stimulation against viruses

At a glance

Activating the immune system specifically against viruses

Bioenergetic Testing

Lymphatic system, lung meridian, liver meridian, nervous system, hormonal system

Supporting ChipCards

- Prepare with **BiBlo**
- **DTX** promotes excretion and detoxification
- **Diamond Shield Program** activates the basic balance of energy levels
- **GR Influenza Program**

Intensification

Depending on virus:

- **HepC** Hepatitis C
- **HSX** Herpes simplex
- **EBV** Epstein Barr
- **HPV** Humanes Papillomavirus

About the mode of action

The frequencies which are saved on the ImVir-ChipCard can stimulate the immune system especially in cases of viral load, such as, influenza viruses or influenza. In practice they have proved to be very successful and they can be used along with the treatment.

Application

ImVir 1-5

ImVir 6

ImVir 7-9

Time (Minutes)

each 03:30

06:00

each 03:30

Additional applications:

- In cases of viral effects as well as chronic diseases caused by herpes viruses and the Epstein-Barr virus the regular use of this ChipCard is particularly important.

- The ImVir-Card may provide support in the immune deficiency Aids.
- Further, I necessarily recommend using the Anti-Vir-Chip in the assistance of treatment of viral and bacterial diseases, such as, mumps, measles and rubella.

Supportive therapy recommendations:

As remedy that supports the therapy with specific action against viruses I recommend the taking of Samento, Takuna, Mannayan Weihrauch and Mannayan Glucan.

Mannayan Glucan, 1x 1 tablet

Takuna, 2x 8 drops

Samento, 2x 8 drops

Weihrauch 1x 1 tablet

KON (Concentration)

Permanent power of concentration in the everyday life

At a glance

Greater concentration, more energized in your everyday life

Bioenergetic Testing

On the nervous system

Supporting ChipCards

- **DTX** promotes excretion and detoxification
- **Diamond Shield Program** activates the basic balance of energy levels
- **L** activates the liver and reduces the cholesterol level
- **ImVir** as far as the Epstein-Barr virus is involved
- **EBV** if involved

About the mode of action

On the KON-Chip frequencies are saved which, for example, support the brain frequencies in a laterality disturbance. By stimulating the blood circulation of the brain the power of concentration will be improved.

Application	Time (Minutes)
KON 1	04:00
KON 2	03:00
KON 3	01:30
KON 4	02:30
KON 5	03:00
KON 6	02:00

Results of the therapy

User of this program experienced its immediate effect by having improved the ability to sustain clear thinking, even in long periods of mental activity.

Supportive therapy recommendations:

- Complement the therapy with a liver detoxification.
- In case of chronic fatigue test your patient for Epstein-Barr virus and apply the EBV- or HSX-Chip.

L (Liver)

Keeping the liver healthy

At a glance

Regulating the lipometabolism, parasites, reducing the cholesterol level

Bioenergetic Testing

Liver meridian, small intestine meridian, test the OD-Meridian as spot for the metabolism

Supporting ChipCards

- **FvE**
- Prepare with **BiBlo**
- **DTX** is very important to clear the excretion pathways and to dispose the slag in the liver through the intestines, the skin, the lymph and the kidneys
- **Diamond Shield Program** activates the basic balance of energy levels
- **GewAbn** stimulates the metabolism
- **WOOD Sedation**

Recommended literature:

A.E. Baklayan: *Cholesterol – Shock and the Alternative*

In order to find out if the patient is still suffering from parasite load the liver should be undergoing an examination after the testing. Due to the fact that parasites depend on cholesterol for their growth they prefer to settle on the liver. *Gardia lamblia* and roundworms have the most to gain from the products of the lipometabolism. For this reason I engineered the frequencies on this chip to effectively eliminate these parasites. Additional frequencies are stored on the L-Chip to support the liver detoxification.

Application	Time (Minutes)
Ascaris larvae1	03:00
Ascaris	03:00
Liver detoxification	03:00
Ascaris eggs	03:30
<i>Gardia lamblia</i>	02:30

Cholesterol reduction 1	02:00
Cholesterol reduction 2	02:00
Intestinal detoxification	02:00
Ascaris Larvae 2	02:00

It is very easy to lower the cholesterol levels. A simple method to cleanse the liver will cost you about 4 Euro and should be performed twice a year. To do so, you will need extra-virgin olive oil, a grapefruit and four capsules of L-Ornithine.

This method is highly suitable for a sustainable liver cleanse and for the support of the use of the L-Card. Repeat this method regularly until the liver is parasite free. You can find detailed instructions on the liver cleanse in the book "Parasites – the Hidden Cause of Many Diseases".

About 95 per cent of patients return to normal cholesterol levels after this combined method. The taking of statins, which millions of German citizens need up to now, therefore becomes superfluous.

For broadening I recommend the book "Cholesterol – Shock and the Alternative" which I wrote in 2001 in direct connection with the Lipobay-Scandal and engineering the L-Chip.

Additional applications

A liver load often is partly responsible for various disease patterns due to increased venosity such as varicose veins, hemorrhoids, shortness of breath and lack of oxygen, as well as for all signs of aging without exception such as, for example, rigidity, decreased standard performance, visual impairment or inactivity of inner organs. For this reason a liver detoxification often is recommended.

Supportive therapy recommendations:

- The healthy liver as the central organ for the metabolism plays a vital role for your wellbeing. A therapy for a thorough liver detoxification may take, if necessary, a period of one year.
- For additional support for the liver I recommend the products Curcuvit forte, Bitterstern and Dermaclean L.

Lu (Lungs)

This ChipCard supports the essential functions of the lungs and helps with the therapy of pulmonary diseases, can be used as prophylaxis and supports the after-treatment of any kind of lung problem (Bronchitis, bronchial asthma, pneumonia). Additionally the oxygen absorption can be improved. Depressive moods can be influenced favorably.

Application

Lu 1-8

Time (Minutes)

24:00

Supporting chipcards:

- **A** Asthma in asthma
- **AR** Anti-smoke
- **ASP** Aspergillus in allergies, shortness of breath
- **DTX** Detox
- **FvE** as a result of emotions
- **ENT**
- **LY** Lymphatic drainage

LY (Lymphatic drainage)

Gentle and effective treatment of stasis and stagnation

At a glance

Lymphatic drainage by amplitude modulation

Bioenergetic Testing

Lymphatic system

Symptomatically according to the diagnosis

Supporting ChipCards

- **BiBlo** eliminates bioenergetic blockages
- **DTX** promotes excretion and detoxification
- **Diamond Shield Program** activates the basic balance of energy levels
- **GewAbn** supports liver, bile and metabolism
- **Ni** kidneys

Recommended literature:

Stephan Wiede: *Sanfte Lymphdrainage mit dem Diamond Shield*

About the mode of action

Through an electronic lymphatic drainage the LY-program supports the natural lymph flow. As with manual massage it creates increased blood circulation in the top and lower layer of the skin. In this way accumulated tissue fluid is discharged into the lymphatic system and then is removed. Edemas and stasises will thus be reduced. This program is also employed in pain therapy. De-blocking the tissues that are overloaded with cell fluid will ease the pain.

Application

LY

Time (Minutes)

06:00

Adjusting the intensity

Increase the voltage until you feel an undulating but pleasant tingling sensation. Please not: the tingling should not be too strong.

Results of the therapy

A relief will set in rapidly for the patient. They will realize a better blood circulation and significant pain reduction.

Supportive therapy recommendations

It is suggested and highly effective to compliment the therapy with the LY-Card with a daily taking of 2 to 8 drops of BURBUR. Alternatively a teaspoon of lymphatic tincture as, for example, Derma-Clean LY mixed with a little bit of water, may support the success of the therapy.

Ma (Stomach)

At a glance

This chip card supports all essential functions of the stomach.

This chip card should be used in combination with

- The Element Chip Card EARTH Damping in case of acidosis and
- The Element Chip Card EARTH Support in case of loss of appetite

Two to three times weekly

Additional chip cards

- **FvE** Chip Card,
- **DTX** Detox
- **BiBlo**
- **LY** Lymphatic drainage Chip Card,
- Relaxation program and
- Diamond Shield Program equally.
- Stay grounded daily for 50 min with Diamond Shield

According to humoralism the stomach is the location of the tone of the body. If it is overburdened, overacidified or flaccid, this definitely can influence all its functions which the stomach isn't normally associated with, such as depressive moods, high blood pressure and fatigue.

Typical symptoms are: Abdominal bloating, eructation and appetite disturbances

Application

Ma 1-7

Time (Minutes)

21:00

Remember that in the digestive functions a lot of routine is involved.

Therefore important supporting measures are:

- Eating regularly
- Eating small portions
- Don't eat too late in the evening
- Healthy sleep
- The grounding with the Diamond Shield will be very useful in this as well.

The connection of emotions and stress is highly obvious and well known so that I should not need to point it out. Therefore the combination with the FvE Chip is favorable and should be used locally daily (7 minutes daily).

By the way, digestive disorders are not easy to treat because the stomach as central organ is extremely susceptible to equally mental stress, wrong habits and poor nutrition, to name only three. Talk to your health care provider about a reasonable treatment program.

In case of acidosis please remember to abstain from classic foods that promote acidity for a while: alcohol, sugar and white flour.

Take daily in the evening a pinch of DermaVit Mineralsalz.

Support with:

- **EARTH Damping**
commonly feelings of hunger, abdominal fullness and tension the stomach area, pain in the stomach
- **EARTH Support**
reduced appetite, emaciation, signs of heavy fatigue of the body
- **Ma/Re** (acidosis of the stomach/reflux)
- **Ga** (gastric ulcer and helicobacter)

MIG (Migraine)

A remedy against migraine

At a glance

Successfully eliminating migraine-specific parasites

Bioenergetic Testing

Parasites should be tested on the nervous system and on the hormonal system. There they can be found easily.

Supporting ChipCards

- Prepare with **BiBlo**
- **DTX** promotes excretion and detoxification
- **ImPar** activates the immune system against parasites
- **Diamond Shield Program** activates the basic balance of energy levels
- Grounding 50 min
- **Es** Relaxation program
- **Wf** Wellness program
- **Rü** Back program
- **LY** Lymph
- **WOOD Sedation**

Stay grounded

Dr. Hulda Clark already attributed migraine to Strongyloides which belong to the superfamily of the threadworms (filariæ). As second cause for migraine by means of numerous tests the so called heartworm (Dirofilaria immitis) has been identified. The MIG-Chip contains frequencies against both parasites. Biophysical blockages, amalgam fillings and liver damage can cause migraine as well. Accordingly, a migraine therapy should be complemented by a BiBlo-Chip treatment, a detoxification of the liver and of heavy metals.

Application

MIG 1-6

Time (Minutes)

je 04:00

Due to the fact that the parasites will be provoked by the frequencies of the MIG-Card the body might react with a mild form of migraine. In this case the treatment needs to be

interrupted for the duration of the migraine, whereas afterwards, during the migraine-free state the intensity of the chip treatment should be increased.

Such sensitive reactions can be avoided with the help of the supporting BiBlo treatment and a detoxification of heavy metals. A supporting factor in this would be a strengthening of the immune system against parasites with the help of the Impar-Chip.

Additional applications

In patients with heart diseases and arrhythmia resulting from this, often a load caused by the heartworm can be proved. For precisely this reason, it would be of benefit in a therapy with this disease to use the MIG-Chip tentatively.

Results of the therapy

With the help of the MIG-Card this therapy method could already convince a lot of people by its numerous successes. For example, the heartworm could be found continually in patients with migraines. Based on the therapy described above the patients concerned could be freed almost immediately from their discomfort. Over the course of a year about a dozen of such successes could be documented.

Supportive therapy recommendations

Due to amalgam fillings it is possible that in patients with migraine therapy is made more difficult. Therefore I recommend that migraine patients should be tested for amalgam load and in the event of a positive test result a heavy metal detoxification should be carried out at the same time. (Please refer to "Therapietipps und Hausrezepte aus der Praxis Baklayan" available from DermaVit)

Mil (Mites)

Bioenergetic Testing

Asthma, allergy, mycoses, sneeze, Alopecia areata, allergic rhinitis

Application

Mil 1-6

Time (Minutes)

30 min

The chipcard contains frequencies of the most important mites:

- Demodex folliculorum
- Dermatophagoides (dust mite)
- Acarus siro (flour mite)
- Ornithonyssus (bird mite)
- Sarcoptes scabiei (scabies)
- Mites gen.

Ni (Kidneys)

Combination with:

- **LY** Lymphatic drainage
- **DTX** Detox
- Diamond Shield Program

Support with:

- **WATER Damping**
in case of stuttering urination, urinary gravel
- **WATER Support**
in case of impairment of sperm, erectile dysfunction, puffiness, frequent urination

Application

Ni 1-7

Time (Minutes)

21:00

This ChipCard supports the essential functions of the kidneys, detoxification and drainage and frequent urination.

PaReg (Regulation of the pancreas)

Application

PaReg 1-7

Time (Minutes)

21:00

This ChipCard regulates all functions of the pancreas (Digestion, enzymes, blood sugar levels).

The *Eurytrema pancreaticum* (Pancreas fluke) can infest and damage the pancreas. It's recommended to apply the ImPar and the EG 4 flukes chipcard and a parasite cleanse.

Combination with:

- **Db** Diabetes
- **EG (4 flukes)**
- **GewAbn** weight loss
- **EARTH Support**
- **EARTH Damping**

Piggy

At a glance

For swine influenza and other types of influenza viruses

Supporting ChipCards

- **DTX** promotes excretion and detoxification
- **ImPar** activates the immune system against parasites
- **Diamond Shield Program** activates the basic balance of energy levels
- Grounding 50 min

Anwendung

Piggy 1-7

Zeit (Minuten)

23:00

This ChipCard contains selected frequencies for the influenza-virus H1N1, also known as swine influenza.

It is generally known that influenza viruses can change constantly and in every flu wave other serotypes can be prevalent. An attempt of application of the Piggy-ChipCard can be made for every flu disease.

Combination with the natural antiviral agents:

Mannayan Glucan, 1x 1 Tabl.

Takuna, 2x 8 Tropfen

Samento, 2x 8 Tropfen

Weihrauch 1x 1 Tabl.

Pr (Prostate)

Application

Pr 1-7

Time (Minutes)

24:00

This ChipCard supports the essential functions of the prostate. Prostate problems are counted among the most frequent problems of men above a certain age.

In the course of the years hundreds of tests have shown that indeed all kinds of creatures and environmental loads can accumulate there, but in many cases 3 types recur obstinately. These are trichomonads, chlamydiae and toxoplasma, whereas the chlamydiae and the toxoplasma are brought along. Trichomonads also influence potency problems of men and some have expressed a high level of satisfaction "in this area" after we had treated the trichomonads load.

In the event of frequent bladder and prostate irritation, erratic urination, a frequent need to get up during the night, chlamydiae play a major role.

Application with the hand electrodes: placing one electrode on the stomach and one at the sacrum to flush this area has been proved to be successful.

Additionally important:

- Mannayan Cyst, 1 capsule twice a day to 2 capsules twice a day
- Urovit
- Zink-Picolinat, 1 capsule once a day

Rh (Rheumatism)

In rheumatic diseases two main factors are known to play an important role:

1. A certain combination of parasites, pathogenic agents, acidosis, hypersensitivity to protein and an excess of carbohydrates
2. An excessive appearance of radicals which attack joints and muscles

With the DS Zapper you can respond effectively to both topics

Radicals will be discharged by staying grounded for 50 minutes after the end of the application. By the way, many users report of an immediate fundamental improvement of their complaints by staying grounded.

Application

Rh 1-18

Time (Minutes)

51:00

Additionally we recommend

- High-quality antioxidants, such as Manna Antioxi, 1 tablet twice a day
- A diet with reduced intake of animal protein
- A reduction of carbohydrates
- Deacidification with
 - Vegimanna
 - Mannayan Calmag
 - Mineralsalz

You can find further information on Vegimanna in the brochure "On the Curative Power of Vegetables" by Stephan Wiede.

Sch - T (Pain-Program analog TENS)

The program for transcutaneous electrical nerve stimulation

Application

Sch - T 1-3

Time (Minutes)

– each 10 Min.

Use Sch-T 1 in acute pain,
Sch-T 2 additionally and
Sch-T 3 in chronic pain.

Tin (Tinnitus)

Bioenergetic testing

Trichinella spiralis, heavy metals, otitis, Morbus menièrè, nutrient deficiencies, teeth problems, antiseptic effect, drugs side effects, ears problems general

Application

Time (Minutes)

27:37 Min

The chipcard contains 34 harmonic Aku-Frequency-programs

Wz (Warts)

Bioenergetic testing

Warts / Papilloma cervix smear, Warts / Verruca plantaris,
Cyst - HPV-associated

Application

Wz 1-10

Time (Minutes)

67 Min

The chipcard contains Rife- and Clark frequencies for different warts types (L-arm, BS, JB, CC, HA, FR)

Z (Teeth)

The problems of the teeth and the dental focus have long been known. According to our tests it has always been the same bacterial genera that gather here. This ChipCard contains the frequency range of the 9 most common bacterial genera.

Recommendation: Let it run once a day.

Application

Z 1-9

Time (Minutes)

41:30

Caution!

When bacteria die rapidly it might happen that a tooth aches.

Attention! Control by a dentist is essential.

Support

- Oil pulling
- Rinse mouth with silver water
- Carefully dab the gums with a very small quantity of oregano oil (dilute if required)

ChipCards according to the five elements

We succeeded in discovering another milestone in the therapy and this is by applying the harmonic frequencies to target the combinations of meridians which constitute one of the elements of the Chinese medicine. This is a very strong and deep therapy.

Let yourself be guided by the primary symptom which normally fits and if the secondary symptoms partially fit as well, you really need this ChipCard.

The only thing we would not recommend is the concurrent use of sedation and support of the same element. This would be contradictory. (You can't cool and heat at the same time.)

On page 105 you will find an indication list with its help you can use the 5 Element ChipCards more often.

This Chip Card belongs to the regulatory circuit of the element WOOD. The element WOOD regulates liver and gallbladder.

It also regulates the stasis in the liver which is overstrained by its many functions, especially by detoxification and the flow of bile. The gall bladder is known to react very sensitively to any kind of stress.

And from this all symptoms follow:

If the element wood is blocked or overexcited mainly headaches arise. Often they are accompanied by great irritability and cramps.

Also remember with the following complaints:

This ChipCard can also be tried in states of cramps and irritability.

This Chip Card belongs to the regulatory circuit of the element WOOD. The element WOOD regulates liver and gallbladder.

It thus also regulates the weakened liver which is overstrained by its many functions, especially by detoxification and production and draining of gall (Digestion of fat). The gall bladder is known to react very sensitively to any kind of stress.

And from this all complaints follow:

Also remember with the following complaints:

Headaches with rotary vertigo

Disturbed digestion of fat

Pain in the lower abdomen

Pain in the skull cap

Secondarily:

Lancinating pain in the lower abdomen

Tense, cramped and nervous

Pain in the skull cap

Vomiting of clear mucus

FIRE Damping**Nervous restlessness**

The element fire in the Chinese medicine regulates the heart and small intestine meridians and their functions. If they are blocked or inflamed or overexcited then they must be sedated.

Also remember with the following complaints:

The feeling of constriction,

Feeling of tension in the umbilical region

Thirst

Heat sensation in the chest

FIRE Support**Anxiety**

The element fire in the Chinese medicine regulates the heart and small intestine meridians and their functions. If they are blocked or inflamed or overexcited then they must be sedated.

Also remember with the following complaints:

Palpitation and precordial anxiety

Insomnia

Stools containing undigested food

Breathing – accelerated	METAL Damping
Breathing – heavy	WATER Support
Respiratory function – decreased	EARTH Support
Breath – shortness of, especially when lying down	METAL Support
Breathing – heavy, with raised shoulders	METAL Support
Atrophy of the limbs	WATER Support
Eructation, loud	EARTH Support
Eructation – acidic and putrid	EARTH Damping
Eyelids- reddened, swollen, painful	WOOD Damping
Abdominal pain- worsened by pressure	METAL Damping
Abdominal pain, rumbling and gurgling in the internal organs	METAL Support
Constriction - feeling of	FIRE Damping
Drowsiness, heavy head	EARTH Support
Vertigo – rotary	WOOD Damping
Vertigo – rotary	WATER Support
Diarrhea	FIRE Support
Diarrhea	METAL Support
Diarrhea - malodorous	METAL Damping
Diarrhea with watery stools	EARTH Support
Diarrhea in the morning	WATER Support
Diarrhea, intense diarrhea after a prolonged dysentery,	METAL Support
Anal prolaps, secretion of mucus	
Thirst	FIRE Damping
Thirst with high drinking	EARTH Damping
Enuresis	WATER Support
Vomiting of clear mucus	WOOD Support
Vomiting of putrid food	EARTH Damping
Reduced ability to remember	FIRE Support
Digestion of fat – difficult	WOOD Support
Puffiness	WATER Support
Face - reddened	WOOD Damping
Facial skin – waxy	METAL Support

Facial color – unhealthy and blackish	WATER Support
Throat – swollen and reddened	METAL Damping
Throat – sore	METAL Support
Urinary gravel	WATER Damping
Palpitation	WOOD Damping
Hot sensation in chest	FIRE Damping
Hunger with rumbling in the stomach	EARTH Damping
Sputum – bloody when coughing (Haemoptysis)	METAL Support
Cough with blood	WATER Support
Cough with thick bloody mucus	METAL Damping
Cough with fine lightly colored mucus	METAL Support
Cough - dry, non-productive	METAL Support
Cough - dry, non-productive	METAL Support
Ikterus	EARTH Support
Extremities – cold	EARTH Support
Extremities – cold	METAL Support
Feet – cold	WATER Support
Sensation of cold in the loin region and legs	WATER Support
Lumps in the stomach region	EARTH Support
Concentration power – reduced	FIRE Support
Headaches	WOOD Damping
Headaches with rotary vertigo	WOOD Support
Weakness of the extremities	EARTH Support
Cramps, twitching	WOOD Damping
Shortness of breath	METAL Support
Abdominal pain,	EARTH Support
Expectoration of clear mucus,	
Improvement through heat and pressure	
Abdominal pain, deteriorated by pressure	EARTH Damping
Mouches volantes	WATER Support
Mouth – dry	METAL Support
Mouth – dry, bitter taste	WOOD Damping
Bad breath	EARTH Damping
Nose – dry	METAL Support
Restlessness	FIRE Damping
Tinnitus	WOOD Support
inflammation of the ear and deafness	WATER Support
